

Other wagons

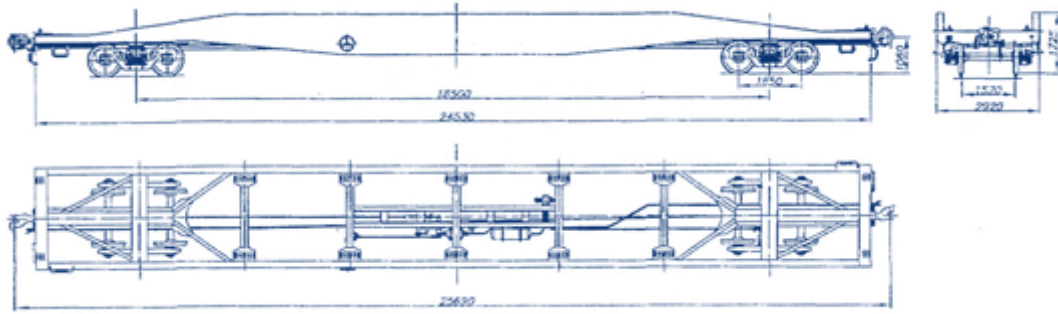

Wagon-Hopper (mineral wagon) is totally new to "azovmaša" products.

Wagon has a carrying capacity of 70 tons, the volume of the body 83 cube. m. Four bunkers are opened in pairs as in manual mode and using pneumatics. Closest axle to limit to 25 tons.

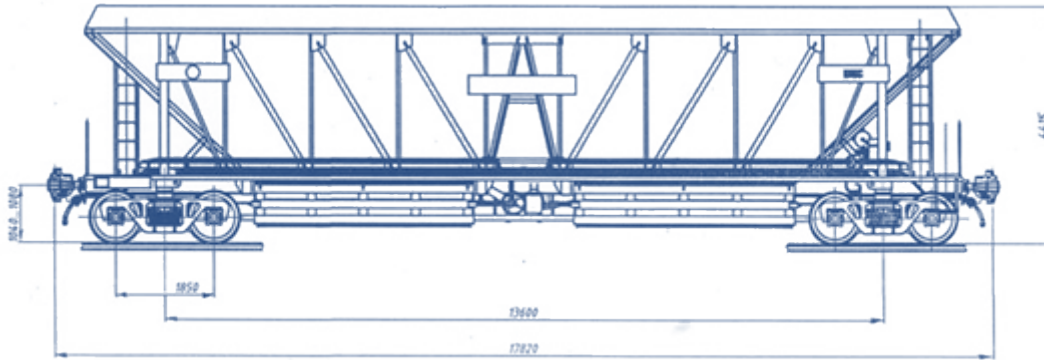

For the first time in Ukraine in accordance with international requirements used separate braking. This is the first article "azovmaša" in 2006, adopted by the Commission and ready in serial production.

Soon completed certification of two new products-large platforms.

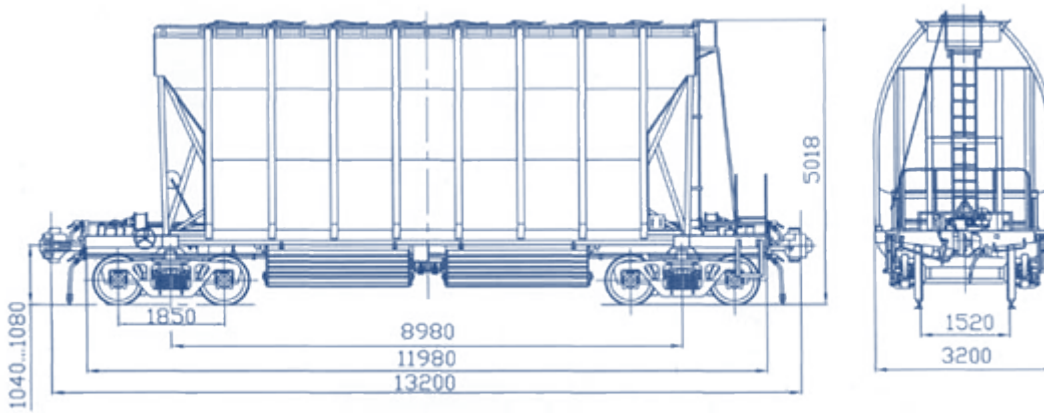

Model	13-1798	13-1796	19-1761	22-1764
