

Wheel set mod.2.7170.31.10.012.20 CB

The wheel set is intended for exploitation under underground rail car designed for 1520 mm gauge. The wheel set consist of two solid rolled wheels under requirements of TY Y14-4-432-98 and axle under GOST 30272-96, gear wheel and drive gear box bearings, drive gear covers and labyrinth rings.

Technical characteristics	
Mass, kg	955
Maximum axle load, mm	14,02
Gauge,mm	1520
Design speed,km/h	90

Wheel set mod.2.7170.31.10.012.70 CB

The wheel set is intended for exploitation under underground rail car designed for 1520 mm gauge. The wheel set consists of two solid rolled wheels under requirements of TY Y14-4-432-98 and axle under GOST 30272-96, drive gear and axle boxes.

Technical characteristics	
Mass, kg	1304
Maximum axle load, mm	14,02
Gauge,mm	1520
Design speed,km/h	90
